

## Yeastar TA800 Analogue VoIP Gateway

## Yeastar TA Analogue VoIP Gateways are cutting-edge products that connect legacy telephones, fax machines and PBX systems with IP telephony networks and IP-based PBX systems.

Featuring rich functionalities and easy configuration, the TA Series is ideal for small and medium enterprises that wish to integrate a traditional phone system into IP-based system. These Gateways help to preserve previous investment on legacy telephone system and reduce communication costs significantly with the true benefits of VoIP.

## Benefits

- 8 FXS ports
- Fully compliant with SIP and IAX2
- Flexible calling rules
- Reliable fax performance with T.38
- Provides high-quality voice compression with industry standard codecs
- Line echo cancellation for 8, 16, 32, 64 or 128 ms echo delays
- Web-based GUI for easy configuration and management
- Excellent interoperability with a wide range of legacy and IP equipment

Stock Code: 12231
